

2013 Star World Championship

San Diego, CA USA

September 1 – 8, 2013

2013

Amendment #1 to the Sailing Instructions

Add the following **bold / underlined text** to 21.2 – Haul out Restrictions

- 21.2 Boats assigned odd numbered bow numbers must remain in the water on odd numbered nights commencing on September 1. Boats assigned even numbered bow numbers must remain in the water on even numbered nights commencing on September 2. **All boats with even bow numbers shall be afloat by 1800 on Saturday, August 31 and remain in the water overnight.**

Reasoning: This reduces the launch congestion on day 1 of the Championship and provides each odd/even bow number group with the same number of nights in the water.

Race Committee – August 28, 2013, 1600
